

HF Mobile Antennas 1004 & 1006

AT A GLANCE

Extremely robust

Built to comply with MIL-STD 810

Flexible configurations:

- Whips
- Risers
- NVIS kits

Matching fast, reliable ATUs available

1004 base

1004 base on 2174
bracket

1006 base

These Lencom HF bases and whips are designed to be used with an Automatic Antenna Tuning Unit (ATU), such as the Lencom 4002.

They are suitable for mounting on any horizontal, flat surface.

They are extremely rugged, and meet MIL-STD 810.

The standard version has a 1.6m whip, with an optional 800mm riser taking the height to 2.4m.

NVIS kits are available.

Refer to the following page for ordering details.
